

**ETSI**  
Expeditionary  
Technical  
Solutions, Inc

## **Expeditionary Technical Solutions, Inc.**

In business since 1999

### **Test & Evaluation for Marine Corps Tactical Systems Support Activity (NAICS Code: 541512: Computer Systems Design Services)**

ETSI provides interoperability and message standards experience for test and evaluation support, including data analysis and protocol knowledge, encompassing the following:

- Tactical Data Link (TDL-J, TDL-B, TDL-A)
- US Message Text Format (USMTF)
- Joint Range Extension Application Protocol (JREAP)
- Variable Message Format (VMF)

ETSI has experience performing test support (as well as engineering and/or management services) for the following systems and programs (among others):

- Multifunctional Information Distribution System (MIDS) terminals
- Common Aviation Command and Control System (CAC2S)
- Joint Tactical Common Operation Picture (COP) Workstation (JTCW)
- Joint Tactical Information Distribution System (JTIDS)
- Global Command and Control System-Joint (GCCS-J)

In addition, the company has experience with the Beyond-Line-of-Sight (BLOS) systems, and intelligence data links – both ground-based and satellite.

### **Software Engineering for Marine Corps Ground Command and Control Systems (NAICS Code: 541715): Research and Development in the Physical, Engineering, and Life Sciences (except Nanotechnology and Biotechnology)**

ETSI provides the following services under this code:

- requirements analysis
- architecture design
- interface definition
- hardware/software integration
- interoperability analysis
- concept development and validation
- alternative design evaluation (to include cost/benefit and technological feasibility analysis)

### **Systems Engineering for Marine Corps Tactical Systems Support Activity (NAICS Code: 541330: Engineering Services)**

ETSI provides the following to hardware, information systems and processes:

- life cycle support
- engineering systems and networks
- integrating multiple systems together
- maintaining each program and system
- deploying systems to the end user

Technical  
Solutions, Inc

**Cybersecurity for Marine Corps Tactical Systems Support Activity (NAICS Code: 541511: Software Analysis and Design Services)**

ETSI understands cybersecurity and its importance. We have been providing cybersecurity services in each of our contracts for multiple years. These services include the identification of vulnerabilities. We also install and test the software patches and updated virus definitions to verify the integrity of the system(s). We use the Host Based Security System (HBSS).

**Contracting Vehicles: GSA 8(a) STARS III GWAC**

Prime contractor  
Using 8(a) STARS III will enable you to access ETSI through an established contract vehicle instead of traditional open-market methods – saving time and taxpayer money.

**Email:**  
[STARS3@extsi.com](mailto:STARS3@extsi.com)  
**8(a) STARS III contract number:**

47QTCB22D0080

**Ordering Period:**

Five year base period with one three year option. Contract base ordering period is 07/02/2021 thru 07/01/2026. Task Order performance can go five years beyond contract ordering end date
